## II. Product Features

The equipment is designed to reduce operator stress and fatigue, with the screen positioned at a comfortable 40 cm distance and an adjustable angle. It also offers simplified wireless mouse operation for enhanced convenience. It features a simple design, with a CCD, LCD display, LED lighting, and an integrated, built-in design. The optical observation is clearer, and the high-definition display offers a resolution of up to 1080 P. The software operation allows users to measure, store, take pictures, and compare. The device supports both 2D and 3D observation, allowing for 360-degree rotation and all-around 3D observation, as well as a large field of view and depth of field.
