Product Features

The Protective Pointer Manual Pellet Press Series (SKU: EPPMPP) is an upgraded version based on the original EPPM-4 series hydraulic press, with added safety protection features. It meets export standards for countries like the United States and Europe and is designed for pressing brittle materials or molds requiring high pressure. It is suitable for laboratories with high safety requirements.

The Protective Digital Display Manual Pellet Press Series (SKU: EPPMPD) is an upgrade of the original series hydraulic press, featuring a pressure display unit using the digital pressure gauge. It directly displays tonnage with a precision of 0.01t, making it ideal for users requiring high-pressure control accuracy.
